

Umma Marium Alam

Full-stack developer, ML researcher, and CS educator — I build things that work, understand why they work, and can explain both.

ABOUT I'm a final-year CSE student at BRAC University with a **3.71 CGPA** and a genuinely broad skillset — I've built production-quality web apps in Laravel and MERN, completed and defended a **thesis on diffusion-based AI** with state-of-the-art results, and mentored peers through complex CS topics. I'm currently deepening my ML research through the **GCI World 2026 April program by Japan's Matsuo Lab**. Whether the role calls for building, researching, or teaching — I show up prepared.

SKILLS

FRONTEND & WEB

RESEARCH

✓ DEFENDED THESIS · 2025

Fast-DDIM VTON — Multi-View Diffusion-Based Virtual Try-On System

Proposed a novel framework combining Adaptive Cross-Pose Attention, Partial Multi-View Learning, Pose-Adaptive Noise Scheduling, Region-Aware Diffusion, and accelerated DDIM sampling. First system to support front/side/back multi-view synthesis for culturally specific garments — introduced the Bangladeshi Traditional Dress (BTD) dataset. Evaluated on VITON-HD, DressCode, MVG, and BTD benchmarks.

GCI World 2026 April by Matsuo-Iwasawa Laboratory at the University of Tokyo

2025 · In Progress

[Global AI Research Training](#)

— An online data science and AI course offered by the prestigious Matsuo-Iwasawa Laboratory at the University of Tokyo

ML PROJECTS

Stroke Risk Prediction

2024

[Python](#) · [Scikit-learn](#) · [TensorFlow](#) · 4,000+ patient dataset

- Compared Logistic Regression, Decision Tree, and Neural Network classifiers
- **Logistic Regression: 95.2% accuracy / AUC 0.842** — best overall discrimination
- Analysed class imbalance trade-offs across Accuracy, F1, and AUC-ROC metrics

California Housing Price Prediction

2025

[Python](#) · [Scikit-learn](#) · [Kaggle Dataset](#)

- Linear Regression R^2 0.654 → Random Forest R^2 **0.767** (+17% improvement)
- Applied feature engineering, EDA visualisations, and Grid Search hyperparameter tuning

WEB PROJECTS

Notes App

2025

[MERN Stack](#) — [MongoDB](#) · [Express.js](#) · [React.js](#) · [Node.js](#)

- Built a full-stack notes application with Create, Read, Update, and Delete (CRUD) functionality
- Designed a React.js frontend and built an Express.js REST API connected to MongoDB for persistent storage
- Implemented state management and real-time UI updates for smooth user interaction

MovieCard App

2025

[React.js](#)

- Built a React.js movie browsing app with add-movie functionality, favourites selection, and dynamic card rendering
- Demonstrates React hooks (useState, useEffect), conditional rendering, and component reusability

Handy Laundry — Online Laundry System

2025

[Laravel](#) · [PHP](#) · [MySQL](#)

- Designed and built a full-stack laundry booking and management platform with order tracking and admin dashboard
- Implemented role-based access (customer / staff / admin) using Laravel Auth and structured MySQL relational tables
- GitHub: [UmmaMariumAlam/Handy-Laundry](#)

RS Food Token System

2024

[PHP](#) · [HTML](#) · [CSS](#)

- Built a web-based food token issuance and validation system with token generation, status tracking, and usage reporting
- Designed a responsive UI for multiple user types with clean form flows

Personal Portfolio Website

2024

[HTML](#) · [CSS](#) · [JavaScript](#)

- Built a fully responsive portfolio site with sidebar layout, animated transitions, and mobile-first design
- Demonstrates CSS positioning, JavaScript DOM manipulation, and cross-device layout skills
- Live: [ummamariumalam.github.io/Responsive-resume/](#)

Mini Projects — JavaScript & Python

2024–2025

JavaScript · HTML · CSS · Python

- Built 6+ projects including slot machine, calculator, hangman, quiz engine, math challenge, madlib generator, and multiplayer dice game
- Demonstrates DOM manipulation, OOP practices, and practical Python/JavaScript logic building

EDUCATION

B.Sc. Computer Science & Engineering

CGPA 3.71 / 4.00

BRAC University, Dhaka · Sept 2022 – Present · 12th Semester

- Coursework: Machine Learning, Computer Vision, Data Structures, Algorithms, Software Engineering, Databases
- AWS Educate — Introducing Generative AI with AWS ✓ Completed 2025

HSC & SSC — Science

BNMPC · 2019 – 2021

- GPA 5.00 / 5.00 in both examinations

LEADERSHIP

Director — Peace Café BRACU

2024 – 2026

- Led team operations, event coordination, and member management

Senior Executive — BRAC University Computer Club

2024 – 2026

- Helped in organisation of multiple technical events; mentored junior members in programming and project work

AWARDS

Duke of Edinburgh

Bronze Award · 2024
